

DNA-TECHNOLOGY

Real-Time PCR Kits
Conventional PCR Kits
Flash /Fluorescence End Point

Sexually Transmitted Diseases ,
Herpes Virus Infection, Human
Papilloma Virus, Respiratory
Infections, Hepatitis and HIV,
Female Urino-Genital Screening ,
SNP Genotyping, Others.....

Smart detection for better production

IQ 2000 Conventional PCR
IQ real Real-Time PCR
IQ plus Fluorescent End Point

Shrimp Viruses , Fish Viruses

- Animal Speciation Identification
- GMO screening and event
- Bacteria and Virus

MaxDetect

Conventional and Real-Time PCR Kits

- Customise PCR kit "on demand"
- Ready to use real-time PCR detection kits (monodose), only add DNA/RNA template. Flexible packing .
- Total DNA Bacterial Genomic Standard (from certified type culture), purified, quantified for extraction control, positive control and calibration curve (certified reference).

PCR Detection Kits
