

POCKIT PORTABLE REAL-TIME PCR

Experience It with Your Own Style

An entire PCR lab is built within the compact body to take on any nucleic acid detection

POCKIT iiPCR

- Dual-channel fluorescence detection
- Single program to finish RT-PCR within 60 minutes
- Touch panel control
- Automatic data interpretation
- Throughput: 1 to 8 samples/ run

Pipettes

cubee. Mini-centrifuge

- Unique 3-in-1 rotor for 0.2-2.0 ml tubes, including the R-tubes
- High Speed Motor—specially designed for spin-column nucleic acid extraction

PCR

- Designed for room temperature shipping

Specification	
Samples per run	1 to 8
Dimensions	28 x 25 x 8.5 cm (W x D x H)
Power Supply	100—240 V, 50/60 Hz, AC
Reaction time	60 min for PCR reaction
Touch screen	LCD/3.5 in./ 320x240(RGB)
Storage	SD / SD HC

Ready Test Kit	
IQPlus	WSSV, IHNV, TSV, YHV, IMNV, Iridovirus, VNN and more
PetNAD	Babesiosis, CDV, E. canis, A. platys, Leptospira, FeLV and more
POCKIT	Avian Influenza A, Avian A H5, Salmonella and more
Create Your Own Style with RUO	
RUO Starter Package	include iiTaq Polymerase, iiPCR buffer, consumable and more. Contact us for more details.....
